# Golf Team

The North Mesquite Boys Golf Team fell short of their expectations. Coach Tabor summed up the season best, "This year was disappointing not only to me but to the players. The team had the ability to win but never played as a team. We seemed to be too involved in other activities and did not excel in any of them. Hopefully we all learned something the hard way." The boys ended their season by placing third in the District tournament.

The North Mesquite Girls Golf Team, on the other hand, had a very successful year. They ended their season by placing first in the District Tournament. Coach Tabor commented, "This year's team lost three of its top five players due to a variety of circumstances; however, the remaining girls competed as well as they could based on their previous experience. Overall, I think the girls did a good job."

# . . . Understanding

# Superintendent Poteet

**Dr. Poteet** has been superintendent of Mesquite Schools for 15 years. He has seen many changes in tha time period.

Dr. Poteet says, "During the past ten years studen enrollment has increased by about 5,000 students, and ove 200 classrooms have been constructed to accommodate thi student growth. Many facilities such as the planetarium an the athletic stadium also have been constructed during thi period of time.

"Quality, dedication, and professional growth of facult members remains at a high level," says Dr. Poteet.

He is thankful that Mesquite Schools "do not experienc many problems confronting other districts." He feels "stu dents in Mesquite Schools reach new heights each year an are truly seeking to fulfill their educational goals."

Dr. Poteet sees a "bright future for the school distric . . . a bond program is to be presented for new construc tion projects. Improvements will continue to be made i the instructional programs and in the co-curricular activit areas as well. All of these plans are designed to compl with the school districts philosophy: "Toward Greate Excellence in Education."

Mr. John Campbell has great respect for the student and the faculty members at NMHS. He is an experience administrator with insight on life. He feels "current stu dents have more immediate goals for their futures than th students in the late '60's and early '70's. Students thes days are more mature and concerned about going to colleg and have the desire and ambition to succeed.

The students wanting to get an average education ar stronger in knowledge than ten years ago because more i expected from them in college." Also, teachers are o higher quality and are better educated. "Those who wan an education can get a better one than ten years ago, bu those who don't care are getting a worse education," say Mr. Campbell.

A large percentage of the student population is respons ble." He feels, however, that irresponsibility is due to th usage of alcohol and drugs. Despite the problems, M Campbell is grateful that most students know how t behave. There has been a decrease of major problems an less conflict that involves higher authority.

"Students aren't a bit different than students were whe I was going to school", comments Mr. Campbell. "Th problems are basically the same. The thing that bothers m most is that few people (students, teachers and administra tion) promote the beautification of the school campus. Th campus is the students' home away from home. The beaut fication program has always been weak, and I would lik increased attention brought to it. A beautiful, clean campu promotes confidence and makes the students feel better."

Respect is the key word for Mr. Campbell: "If you don have respect for yourself then no one else will either."

He feels the two most important things to remember ar Happiness in life comes from the ability to communicat and a person has to develop a saleable skill in order to com pete for a livelihood."

"In a dome-shaped area, an optica mechanical device projects images of star and planets on an artificial sky. All celestia bodies are shown moving their correct rela tive speed, even though the daily movemen can be compressed into a few minutes o seconds."

The new planetarium has a lecture room that accommodates 98 persons while the projection area seats 72. Under the direction of Mr. Jim Rusk, Planetarium Coordinator, several presentations are scheduled daily throughout the school year. Both pre and follow-up studies are conducted by classroom teachers as an integral part of regular science, math, social studies, and literature curricula.

Mr. Rusk says, "The planetarium brings a new dimension to education in Mesquite Schools. The world of space, time, and motion becomes real for the student, and he can prepare himself for life in the 21st century!"

THE SOPHOMORE CLASS — Pictured above are the sophomore class officers: **Judy Sipe,** President, *left;* **Doug Prater,** Vice President, *center;* and **Lori Bannister,** secretary, *right.* This year the class co-sponsored the movie, "Who's Minding the Mint," a P.T.A. fund-raising project. The 749 students are adament about their contribution to N.M.H.S. Judy states, "As members of the sophomore class, we feel that our class has created and promoted school spirit through such organizations as J.V. Drill, J.V. Basketball and Football, cheerleading and many others. We strive to represent North Mesquite to the best of our ability."

A recent addition to the N.M. faculty is **Mr. Tom Dav** shown here explaining a chemistry problem.

FEATURED SOPHOMORE — "Ever since I remember I've wanted to become a dancer." This statement by **Becky Perkins** best sums up her direction in life. As a child, living in Spain at age five, Becky had her first ballet lesson. Her dance experiences have included roles in "The Nutcracker," "Coppelia," and "Firebird," all productions of the Dallas Ballet. Closer to home, Becky has been in the cast of "The Music Man" and "Oklahoma." Other activities at NM include memberships in the student council, National Junior Honor Society, and the all year school honor roll. This summer Becky hopes to attend a workshop in New York, San Francisco, Houston, or Denver. With her sights set on Broadway, Becky says that a career offer following high school would take precedent over a college education.

# Juniors Plan for Last

THE JUNIOR CLASS — 736 of the most hard working students on the campus of N.M.H.S. are found in the junior class. Their projects include the Rick Presley Concert, fund-raising project for sponsorship of the Senior Prom, and cosponsor of the Talent Show. Representing the juniors as officers are: *Left:* President, **Ralph Darnell,** *Center:* Secretary, **Karla Yarbrough,** *Right:* Vice President, **Kevin Newberry.** The work of the class is best stated in Ralph's comment, "Every job is a self-portrait of the person(s) who did it."

At North Mesquite, Sabrina is a twirler for the Big Blue Band and has earned more than 200 trophies, including several state titles.

Jill also says that she learns much about herself and the people around her. She plans to make a career of modeling.

# Seniors Look

THE 1979 SENIOR CLASS — This year the senior class sponsored two assemblies: the Rick Presley assembly and the assembly on advertisements. There was also a breakfast planned after the prom and a senior picnic was set up at Flag Pole Hill by John Pena and the officers. The officers have also planned a senior class reunion in five years. The senior goal this year was to buy a portable minicam for the band, baseball and other organizations who could make use of one. The senior class officers are pictured above: **Alex Thornburg,** President, left; **Sonya Brooks,** Secretary, center; **Paul Nichols,** Vice President, right.

# Toward Future

Above are pictured just a few of the seniors; **Betsy Fox,** *top left;* **Joey Rodriquez,** *top right;* **Carol Eoff,** *bottom left;* and **Adrian Booker,** *bottom right.* Throughout this section you will see different seniors doing things they like to do and reading profiles about them — profiles that show the many sides of the "top" class.

## Beautiful Silence

by **Paul Murray**

When Time is slow and people can't be found,
I search for a place where warm feelings grow,
Without more delay my thoughts twirl around
Till I drift away on clouds white as snow;
On this journey I'll never walk alone,
God will be with me; it's He that provides
That beautiful silence too few have known.
Silence, sweet silence! My fear now subsides;
High above the trees I fly with the wind-
Music in my ears, silence in my heart;
It is times like these when I need a friend
To love, to cherish; that's only a start;
Now I return to a life so unfair
Oh, how I long to hear the words "I care."

Lupe Lopez has been playing soccer since the age of six and has played for the team here at North Mesquite for three years. He is very involved in the Mesquite soccer club, Olympia. The past summer he went to play in an international in Mexico City and plans to return again this summer. (In the above picture, he is at an international tournament sponsored by the club.) Lupe also enjoys studying hispanic culture and has taken Spanish for four years. His plans for the future are uncertain. He hopefully will obtain a scholarship in soccer or he may possibly travel to Mexico City and study there.

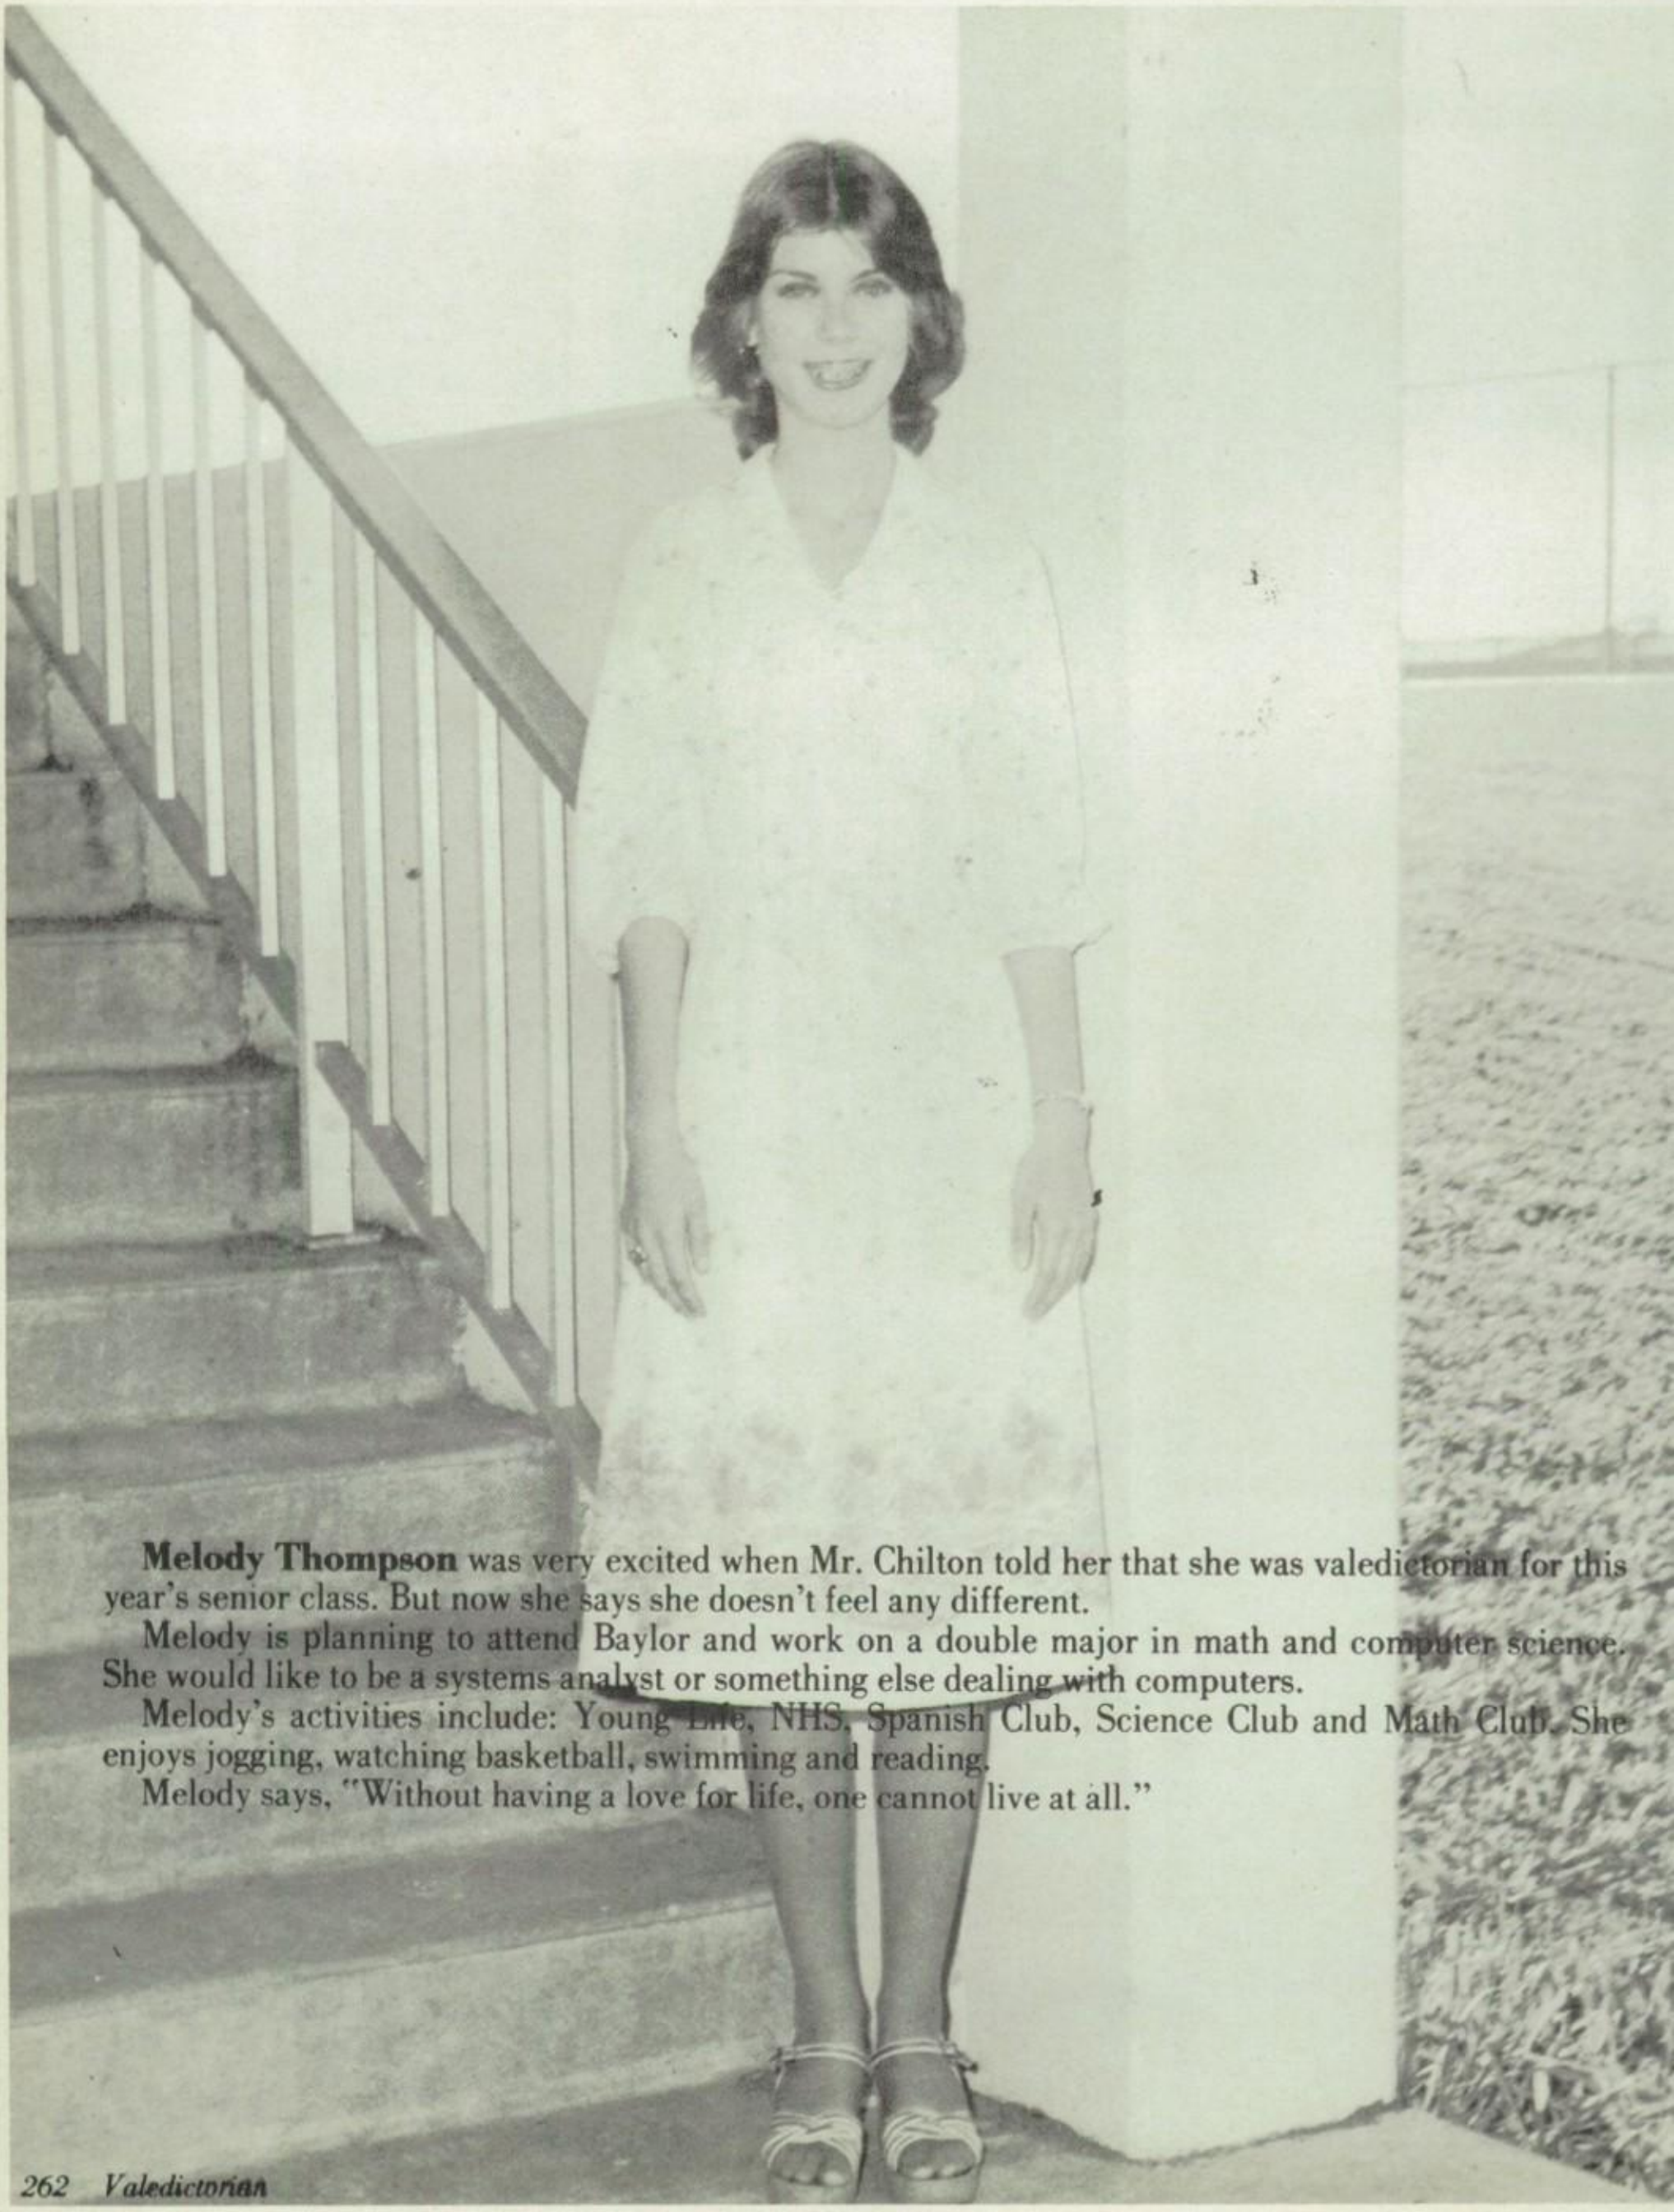
# Melody's #1



**Melody Thompson** was very excited when Mr. Chilton told her that she was valedictorian for this year's senior class. But now she says she doesn't feel any different.

Melody is planning to attend Baylor and work on a double major in math and computer science. She would like to be a systems analyst or something else dealing with computers.

Melody's activities include: Young Life, NHS, Spanish Club, Science Club and Math Club. She enjoys jogging, watching basketball, swimming and reading.

Melody says, "Without having a love for life, one cannot live at all."

# Steve's #2

**Steve Taylor,** salutatorian, says it feels great to be known as the second best.

His plans are to attend the University of Texas at Arlington and major in aerospace engineering and physics. As of now he has no plans for after college.

Being a member of the Math Club, Number Sense/Slide Rule Team, NHS, and Science Club, Steve enjoys pursuing his interests in math and science.

# TRAILBLAZER

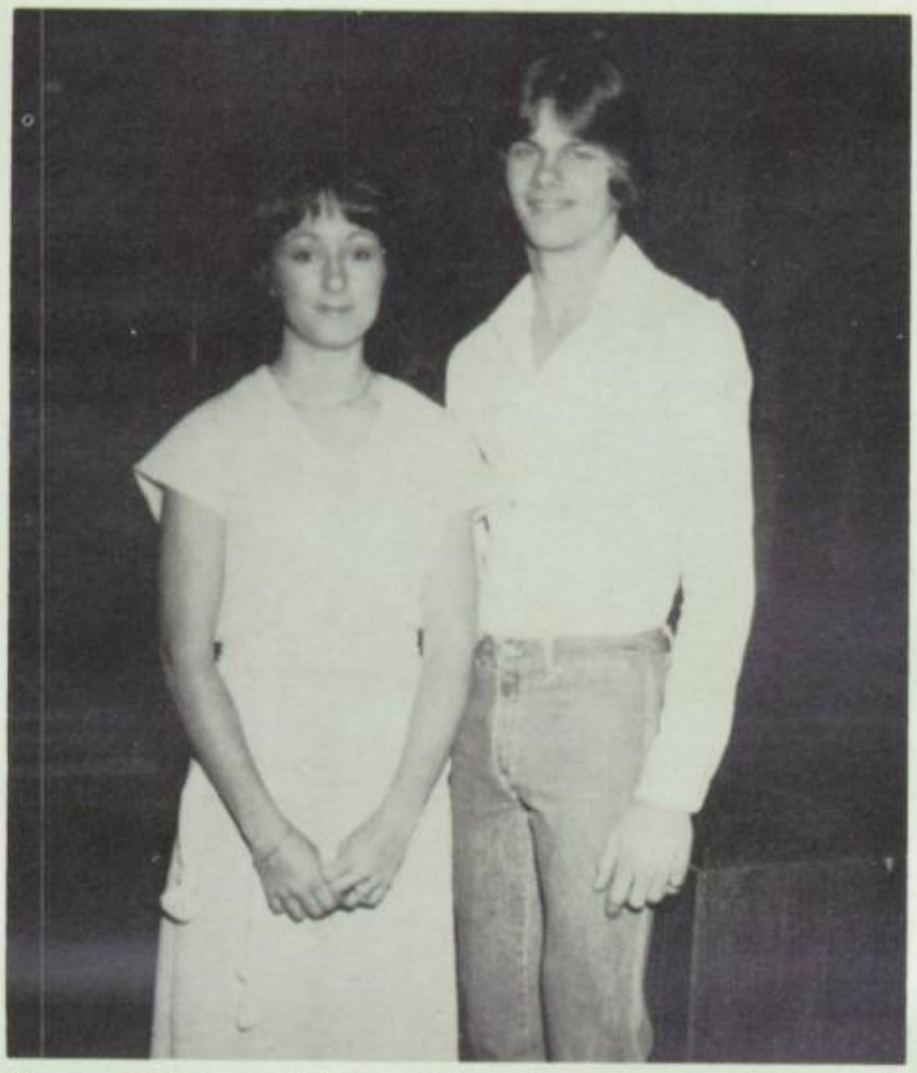
The Football Award was given to **David "Moose" Adams.** David likes all sports but has a special interest in football and basketball. David received a football scholarship for four years. Two at Henderson County Jr. College and two at Baylor University. He plans to major in Business Administration.

This year's choir award goes to **Vanna Way.** She has been in Unity three years and in Chorale for two years. She played the lead in the year's musical "Oklahoma." Besides receiving the Trailblazer Award she also received the Arion Award, the Departmental Award and was voted Outstanding Choir Member in Chorale.

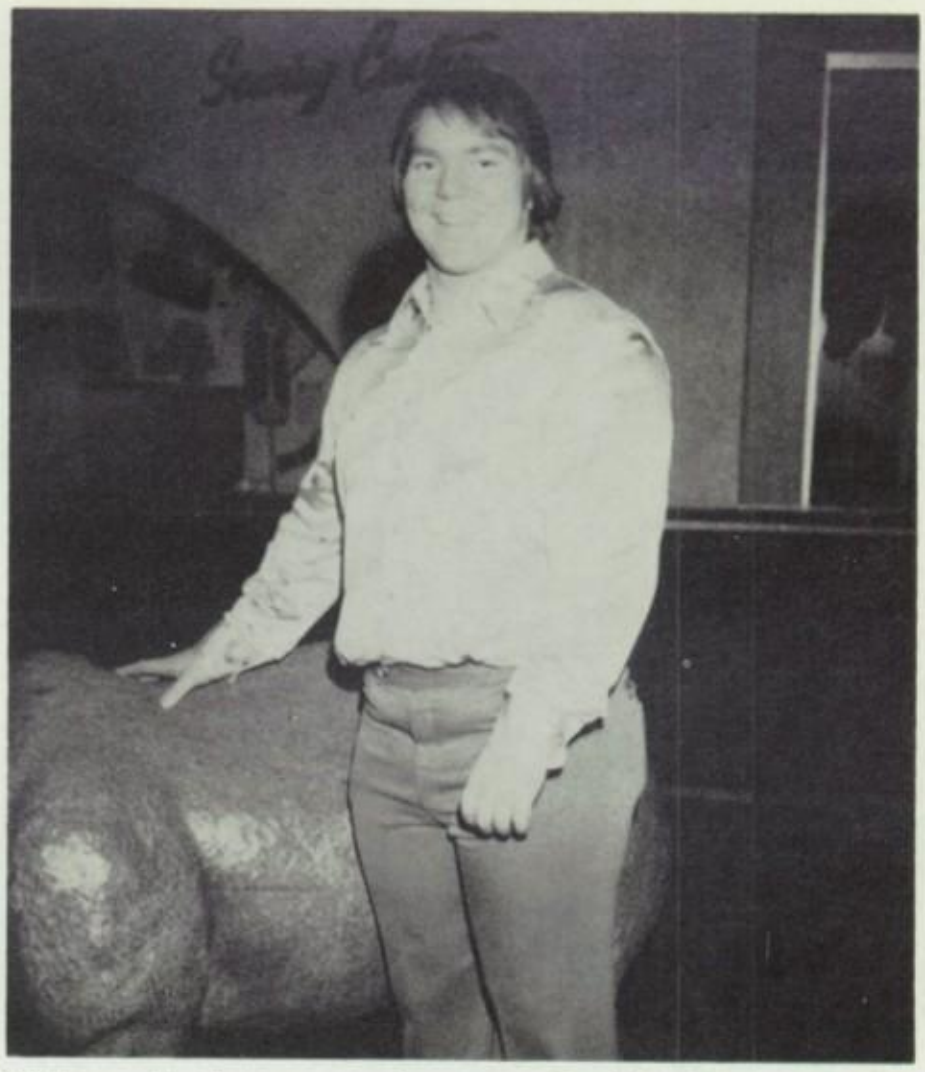
The Personality Award went to **Phil Teagle.** You know Phil must have been friendly to everyone because every other day someone was singing happy birthday to him. Whether it was in the choir room, in the lunch room, or just in the hall, Phil was always having a birthday. But seriously Phil Teagle seems to be friendly to everyone.

The band award has been given to **Jill Johannsen.** Jill has been an outstanding band student all the way through high school. She was in the big Blue Band and Stage Band. She also made the TMEA All-State Band two consecutive years. She also received the Department Award.

# AWARDS



**Perry Elliot** and **Tina White** both deserve this year's Basketball Award. They have both played basketball all four years at North Mesquite and have done a great job.



This year's drama award goes to **Rocky Simpson.** His face has become very familiar to the North Mesquite stage. He performed his first major role as a testy land-lord in "They'd Hang You in Nashville." His second role was in the musical "Oklahoma" as Jud. Rocky is also in Unity and served as Vice President of Chorale.

The soccer award goes to **Kim Mabry** and **George Giatrakis.** George got best offensive player award for the second year in a row. Kim and George have both been on the NM Soccer Team for their entire four years at North Mesquite.

The track award goes to **Donna Crumley** and **Ricky Zivney.** They have both been on the track team for four years at North Mesquite. They are both outstanding in this field.

Since 1959
These words deserve sharing with others,

Today is Here
IT'S TIME TO DO WHAT YOU PLANNED ON YESTERDAY

Today is here, I will start with a smile, and resolve to be agreeable. I will not criticize. I refuse to waste my valuable time.

Today has one thing in which I know I am equal with other times. All of us draw the same salary in seconds, minutes, hours.

Today I will not waste my time, because the minutes I wasted yesterday are as lost as a vanished thought.

Today I refuse to spend time worrying about what might happen. I am going to spend my time making things happen.

Today I am determined to study to improve myself, for tomorrow I may be wanted, and I must not be found lacking.

Today I begin by doing, and not by wasting my time. In one week, I will be miles beyond the person I am today.

Today I will not imagine what I would do if things were different. They are not different. I will make success with the material I have.

Today I will stop saying, "If I had time," for I never will "find time" for anything. If I want time I must take it.

Today I will act toward other people as though this might be my last day on earth, I will not wait, for tomorrow never comes.

4 SIMPLE POWERFUL WORDS
dream, study, plan, ACT.

One of the largest Real Estate franchises in this country, began on a paper napkin in a restaurant. You may have heard of them . . . Century 21.

Jim Thompson Associates, Realtors would like to wish the students at North Mesquite High School the best always in life and in the business world!

# SAVING TIPS on electric air conditioning

Air conditioning provides lots of comfort during the summer months, but for many thousands of homeowners it is also the biggest factor in the cost of electricity. On the average, air conditioning accounts for about half of summertime electric bills.

Here are ways you can hold down the cost of air conditioning and still enjoy its comfort.

**Central Systems**

1. Set thermostat on 78°, or higher, during the summer. Turn unit off if you'll be away from home several days.
2. Keep equipment at top operating efficiency. Have it checked seasonally by qualified serviceman.
3. Check filter every 30 days. Dirty filters cause equipment to use excessive electricity. If filter is permanent, clean by manufacturer's directions; if it's disposable, it should be replaced when dirty.
4. Keep furniture, draperies away from air outlets and returns. Clean grills often.
5. Close draperies and blinds to keep out direct sunlight.
6. Keep fireplace damper closed.
7. Proper home insulation keeps the heat out, cuts energy use. Insulation questions? Call TP&L.
8. Shade on roof and walls can reduce energy needed to cool. But trim trees, shrubs away from outside compressor unit. Keep it free of leaves, debris. If air flow is blocked, unit uses more energy.
9. Weatherstrip doors and windows; caulk cracks to prevent drafts and cool air loss.
10. Keep windows closed. Open outside door as little as possible.

**Window Units**

**Follow above suggestions, plus these:**

11. Buy units with *highest* "energy efficiency ratio" (EER). Uses less electricity to cool. If EER is not on sales tag, ask for it or figure it yourself. Divide "wattage" into "BTU" capacity. Both figures are on unit.
12. Place unit where it'll get as little direct sun as possible.
13. Aim air outlets at lower half of doorway to next room to allow warm air from that room to enter at the doortop for recooling recirculation.
14. Never vent air conditioner into garage. Ventilation is usually too poor for top performance of your unit.

Conserve electricity and you help conserve one or more of the fuels needed to produce it. Conserve fuels and you help assure that there will be enough to meet essential needs for electricity in the future.

When you pass a TP&L office, warehouse, generating plant or other facility, you'll see that we've turned off all non-essential lighting. And, in as many other ways as possible, TP&L is reducing its own uses of electricity.

*If you would like additional information on conserving electricity, call the Customer Service Representative in the TP&L Office.*

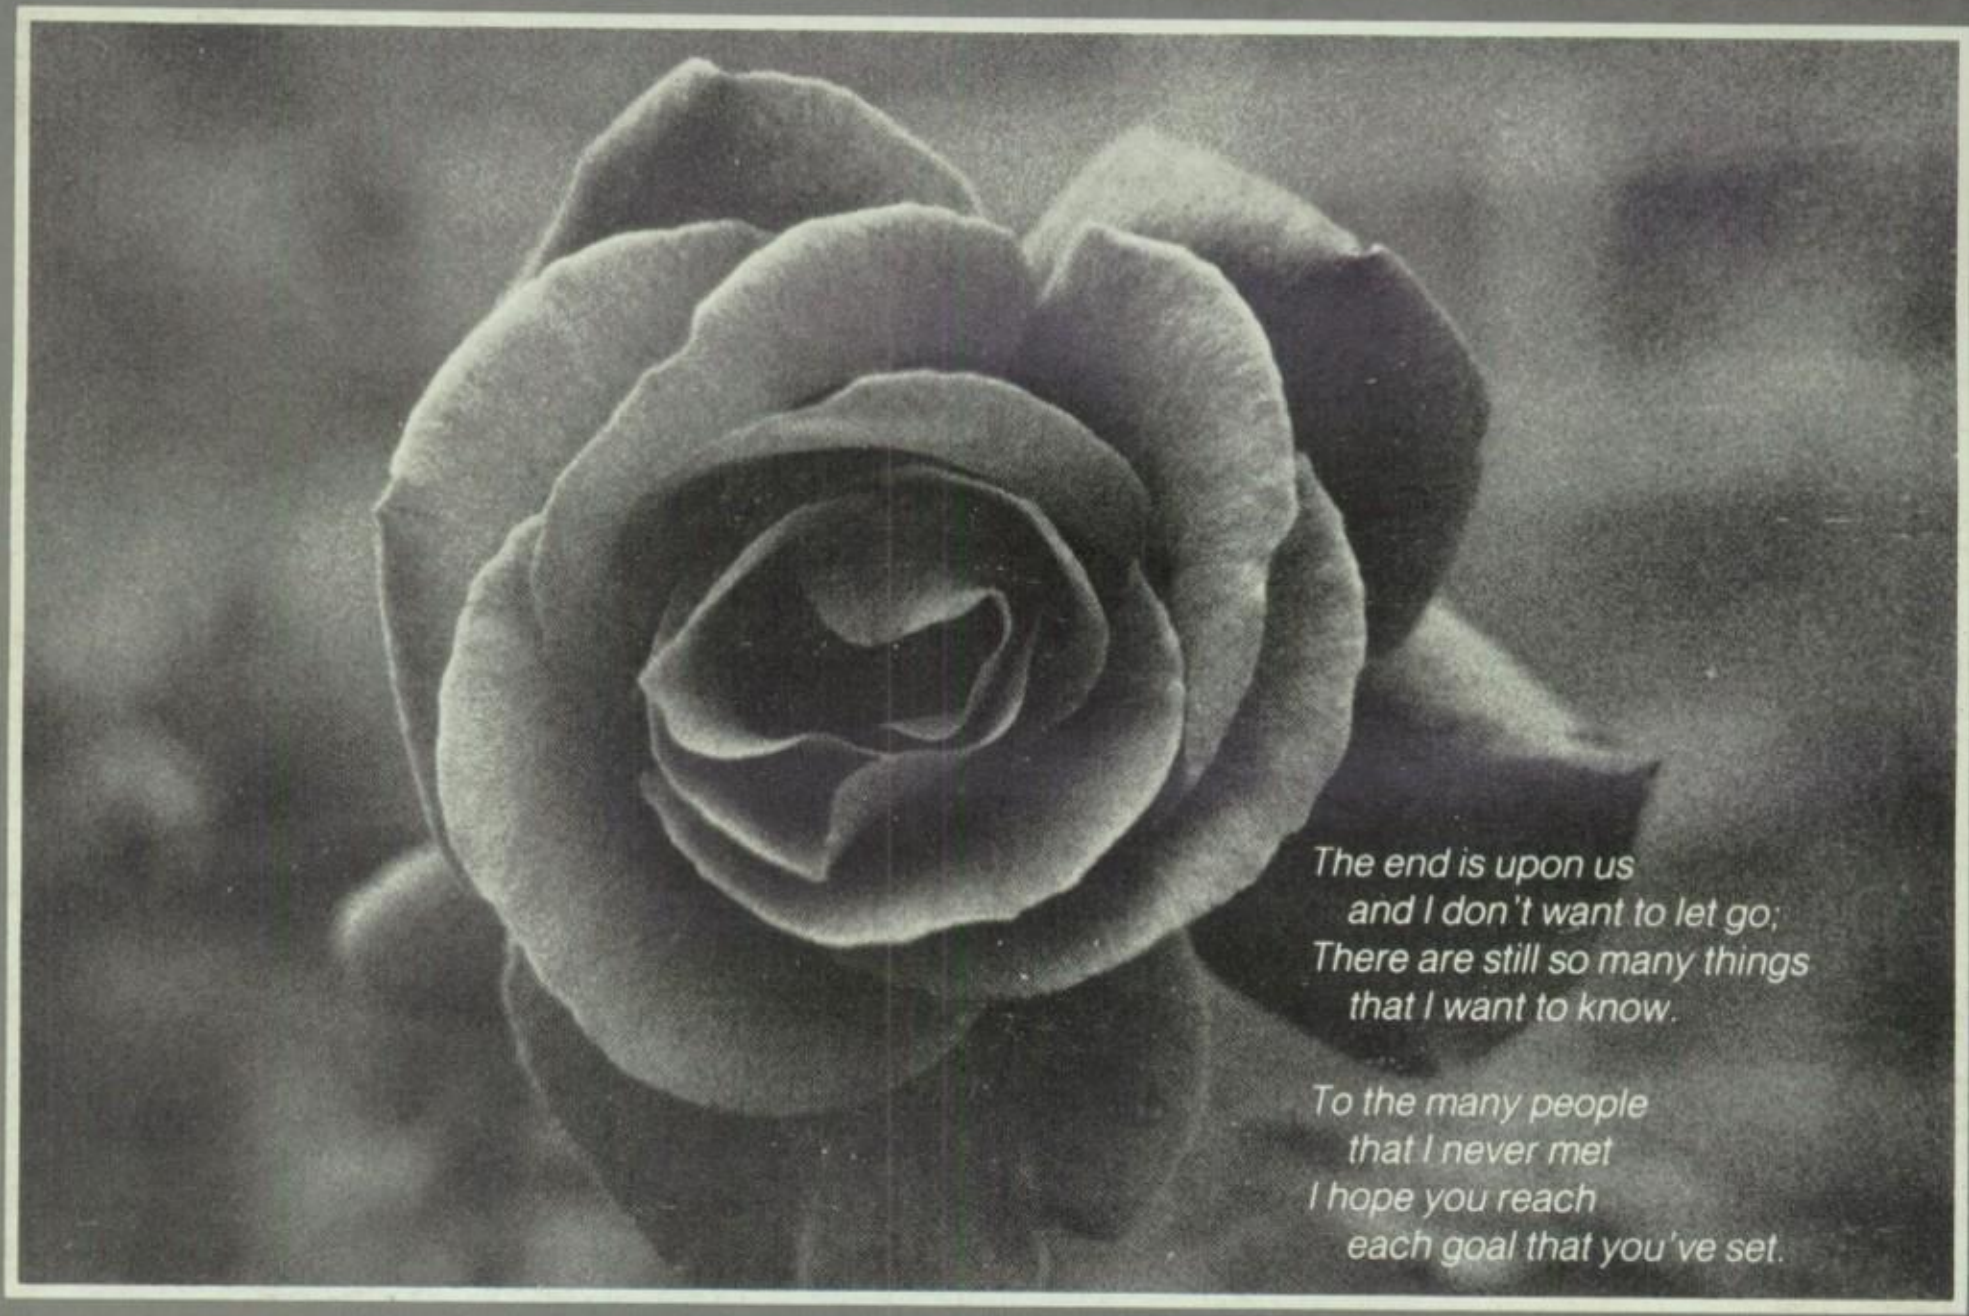
# *In Memory of . . .*



The end is upon us
and I don't want to let go;
There are still so many things
that I want to know.
To the many people
that I never met
I hope you reach
each goal that you've set.

*And to the many friends*
*who've shaped my life*
*I'll never forget*
*our joy or strife.*

*We've matured at great costs*
*these past four years;*
*We've won, we've lost*
*we've laughed and shed tears.*

*I savour each moment*
*with a melancholic lust;*
*I don't want to leave,*
*yet I know I must.*

*Goodbye's not the end,*
*I know this to be;*
*Life's only beginning*
*and it starts here with me.*

T. H. McDonald

**Thomas Howard McDonald** was born at Bedias, Texas, on November 20, 1900. As an honor graduate, he entered Sam Houston State College after having earned letters in football, basketball, baseball, and track. After graduating with a Bachelor of Science Degree in 1925, he married Era Lee Cook of Center, Texas, on June 10, 1926. They had one son by the name of Thomas Howard, Jr. The University of Texas was where he obtained his Master's Degree in 1937.

For two of the five years he coached; he also served as principal.

Mr. McDonald became Superintendent of Schools at Weimar, Shiner, Lyford, and Sweeney. At Schreiner Institute, a junior college in Kerrville, Texas, he served as a public relations director and student enrollment counselor.

Mr. McDonald came to Mesquite Independent School District on July 1, 1950 to serve as Superintendent of Schools for fourteen years. He was also principal at Hodges Elementary School for seven years. He left the educational field with forty-nine years of dedicated work as an educator of Texas.

He completed three terms as State Representative after having been elected in 1973. During his years in the House, he was a member of such committees as Education, Environmental Control, Insurance, and Social Services in 1975.

The credit goes to Mr. McDonald for the passage of a 1973 state school finance bill. This action funneled an extra million dollars per year into the Mesquite School system.

"Mr. Mac" was a rare individual; he will be missed by everyone.

From the editor,

The theme of this 1978-79 anniversary edition of the *Trailblazer* has been time — or rather A Time For . . . There has been a time for smiling, achieving, competing, and sharing. Sometimes our activities fill up so much of our time that we forget to stop and thank the people that have helped us the most. At this time we would like to pause and recognize the following people who have helped our staff in putting the 1978-1979 *Trailblazer* together.

These people have contributed photos to our annual: Keith Adams, Nancy Collins, Cyndi Cook, Paul Griffith, Elizabeth Harrington, Jimmy Howard, Chris Howell, Lisa Means, Sue Mitchell, Cheryl Offutt, James Orr, Russ Roden, Jeff Sistrunk, Ray Willard, Jeff Youngblood, Mrs. Sue Braden, Mr. Eddie Lamb (groups and sports), Dr. John Kostohryz (sunrise), Mrs. Muhl (sports), Mrs. Charles Mansfield (sports), Mr. Benny Molina, Mrs. Sue Pheil, Mr. Ron Powell (sports), and Mr. Gene Wood (favorites, groups, sports). We would like to thank Mr. Don Griffin, who was our representative with Taylor Publishing Company.

Artwork: Adrian Booker (Ad art)
Jane Bynum (Cover design), Kirby Lowe
(Ad Art, Senior "characters")

Places we've taken pictures: Hyatt Regency, Daughters of American Republic (Fair Park), 94th Aerosquadron, European Crossroads, Town East Mall, Farrells.

I would like to give a special thanks to a special group of people. The 1978-79 *Trailblazer* Staff. They have really done a great job this year, and how they put up with Mr. Taylor and me I'll never know — especially these last few weeks when their "editor" came down with a bad case of senioritis. They have put in much hard work and many long hours; I'm eternally grateful to them. I hope you will enjoy this annual, and that you are as proud of it as we are.

Cindy
